

List of the available statistical fields

The user can directly collect the lines of data showed below and copy them in his own data file.
Symbol definition :

- $\langle . \rangle$: time average
- U,V,W : Velocity components along the I,J or K-direction, respectively
- T : Temperature
- P : Pressure
- ρ , ρ_0 or R : Density of the fluid

for instance, $\langle RVT \rangle$ means the time average of the quantity $\rho \cdot V \cdot T$.
